ABOUT ME

Computer Science undergraduate in my second year with a growing interest in cybersecurity and information security. I'm particularly curious about how organisations protect systems, data, and users in fast-moving, real-world environments. Through my studies, cyber outreach work, and practical roles, I've built strong problem-solving skills, attention to detail, and the ability to communicate technical ideas clearly. I'm seeking a year-in-industry placement where I can keep learning, contribute meaningfully, and gain hands-on exposure to security operations within a professional organisation.

EDUCATION

September 2024 - Present

- LONDON SOUTH BANK UNIVERSITY
BSc Computer Science (Year 2)

January 2018 – December 2020

- ST. GREGORY'S HIGH SCHOOL AND COLLEGE
A Levels (Science) – With grade of AAA

WORK EXPERIENCE

London South Bank University (Lead Representative – School of Computer Science and Digital Technologies)

April 2026 – Present

- Represent students across the School of Computer Science and Digital Technologies, acting as a key link between students and academic staff
- Lead student representation by gathering, analysing, and communicating feedback to improve teaching quality and student experience
- Collaborate with course representatives and staff to support clear communication and effective solutions
- Participate in meetings to raise student concerns and contribute to positive change
- Promote student engagement and ensure inclusive and effective student representation

London South Bank University (CSI Outreach Student Ambassador)

November 2025 - Present

- Deliver interactive outreach sessions on basic cybersecurity, online safety, and digital wellbeing for school and college students
- Support hands-on learning activities to explain technical ideas in a clear and accessible way
- Communicate confidently with students from diverse age groups and backgrounds
- Represent the university at on-campus and off-campus events in collaboration with academic staff and ambassadors
- Contribute to widening participation and access initiatives through teamwork and clear communication

MEAMO LTD (Digital Marketing and Social Media Assistant)

January 2025 - Present

- Create and optimise digital content and product images using AI-assisted tools to support e-commerce listings
- Conduct product research and analysis to improve listing quality, visibility, and performance
- Write and update product titles and descriptions with a focus on clarity and accuracy
- Track stock levels and maintain basic reports using Excel

- Support promotions and handle customer enquiries professionally
- Contributed to improved performance of selected listings through content optimisation

SKILLS

- **Cybersecurity Awareness** – Basic understanding of cybersecurity concepts, online safety, and digital risk, with a growing interest in security operations
- **AI & Digital Tools** – Use AI tools for research, content creation, image generation, and improving digital workflows
- **Design & Content Creation** – Create clear and engaging digital content using Canva, Adobe Illustrator, Photoshop, and Adobe Acrobat
- **Data & Office Tools** – Use Excel and Word for tracking, reporting, documentation, and organisation
- **Research & Analysis** – Carry out online research and basic performance analysis to support decision-making
- **Problem Solving** – Identify issues, troubleshoot problems, and support smooth day-to-day operations
- **Teamwork** – Work effectively within teams and contribute to shared goals
- **Communication** – Communicate clearly and confidently with customers, peers, and supervisors
- **Time Management** – Manage multiple tasks efficiently and meet deadlines in fast-paced environments
- **Attention to Detail** – Maintain accuracy across data, content, and operational tasks
- **Adaptability & Reliability** – Quick to learn new systems and tools; dependable and flexible

LANGUAGES

- **Bangla** – Native/Fluent
- **English** – Proficient
- **Hindi** – Conversational (speaking and understanding)

Volunteer Work

Encode Club (Hub Scholar)

April 2026 – Present

- Support planning and delivery of tech events at the Encode Hub, including setup and coordination
- Collaborate with the team to develop event ideas and boost participation
- Engage with a diverse community while maintaining a welcoming, professional environment

London South Bank University, Zero Day: Cyber Security (Digital Outreach & Campaign Lead) Founder

September 2025 – Present

- Manage digital platforms to promote cybersecurity awareness and student engagement
- Create engaging content and support online safety outreach initiatives
- Collaborate on event planning, communication, and maintaining an up-to-date online presence

St. Gregory's High School and College – Volunteering & Extracurricular Activities

January 2017 - November 2020

- Organised and supported club events, taking initiative in planning and coordination
- Hosted activities and guided sessions, engaging participants and ensuring smooth delivery
- Collaborated with team members and took on leadership responsibilities to support decision-making and teamwork
